**3 PHASE**

**12 VOLT DC**

*Variable Speed Drive*

*available with all power options.*

## **FEATURES**

Agi-Tote is ideal for mixing light viscosity materials, or for chemical blends that need to remain in suspension. We offer a range of prop sizes from 2.5" to 6" and you can also add any number of props to the shaft to increase agitation. All props, shafts and hardware are constructed of stainless steel. Agi-Tote is easy to lift with the handlebar feature and installs with a 6" screw cap to 270 gallon and up totes.

<b><u>Model #</u></b>	<b><u>Description</u></b>
