

4-6 BULK PRODUCT CONTROL

STS-EZ-METER-1-4
(5283077)

STS-EZ-METER-1-6
(5283078)

STS-EZ-METER system enables bulk product transfer without the need for 12VDC chemical pumps and meters. Select an **STS** inductor and **STS-EZ-METER 4 or 6** product input to meet your application needs.

Systems are available in a 1" version with a flow rate of 18-22 GPM or 1 1/2" version with a flow rate of 36-44 GPM.

AUTOMATED CHEMICAL BATCHING

**1" STS EZ AUTOBATCH
100 SYSTEM**
(5283376)

**1 1/2" STS EZ AUTOBATCH
150 SYSTEM**
(5283377)

**1 1/2" STS EZ Autobatch
shown with STS Inductor
and EZ Meter**

The **STS EZ-AUTOBATCH** from **Ag Spray Equipment** automates bulk chemical batching for fast, accurate, and repeatable fills every time. Using a **1" or 1 1/2" oval gear flowmeter and electric valve**, the stand-alone system dispenses preset product volumes while reducing chemical waste and operator guesswork. Designed for easy integration on the suction or pressure side of existing systems, the **EZ-AUTOBATCH** features automatic valve control and over-run compensation that improves accuracy with every cycle. This system is best incorporated with the STS EZ-METER system and should be used on the product with the largest amount of volume.

<u>Part #</u>	<u>Description</u>
5283376	1" STS EZ Autobatch 100 System
5283377	1 1/2" STS EZ Autobatch 150 System
